There's another choice for group health insurance ...

Medica — local presence, national reach

While we've been serving North Dakota's clients for more than 10 years, you may not be familiar with some of the many benefits Medica can offer you.

We're the fastest growing health plan in the Midwest

Medica is the plan of choice for more than 12,000 employer groups with 1.3 million members. Employers big and small rely on us for affordable, innovative fully and self-insured health plans.

That's because we offer:

A plan right for any group

Medica offers terrific health plans, including:

- **Medica Choice**®, an open access network plan which features a broad, but local provider network for those who want maximum flexibility and value simplicity
- **High Deductible Health Plan Suite** with HRA or HSA options
- **Passport from Medica**®, an open access *national* network plan for those who have employees located in multiple states or across the country
- **Medica Essential**®, our care system plans, which provide cost savings to those willing to accept a narrower provider network (available in some areas)

Access to a strong and growing network

Medica is working hard to increase our local network and have 535,000 physicians and nearly 5,000 hospitals in our national network. All Medica members traveling outside of Medica's service area have access to United Healthcare Options PPO® network – one of the largest provider networks in the country.

Service you can count on

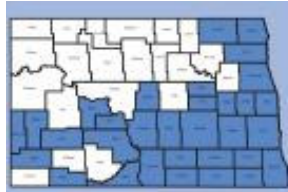

Medica has a long-standing reputation as a service leader. We work closely with brokers and groups to make sure implementation goes smoothly. Once on board as a client, terrific service continues. **Here's proof:**

- Average claims turnaround 8 days
- Claims accuracy 99%
- Call response time well below industry standards

We'll partner with you to control health care costs

Healthy employees feel better, miss fewer days of work, and spend less on health care. We have introduced a number of programs that promote wellness and improve your bottom line.

- **My Health Manager from Medica:** Fully integrated online health management program. This fun, incentive-based program features quarterly activities, health challenges, online seminars, and tools to help employees make the most of their health.
- **Medica's Wellness Resource Center:** Turnkey programs and materials to support worksite wellness.
- **Main Street Medica:** Online cost and quality tools to help members get the most from their health benefits.
- **Medica's Disease Management:** Education and resources to help support members manage chronic conditions.
